Queen's Printer and Publisher

Toronto, Ontario

CAT. No. 7404 - 1

The Government of Ontario has almost 500 different services working for the people of this great province.

The Ontario Government Bookstore, operated by the Queen's Printer and Publisher, is one of these services and is the place where information on all Government services can readily be obtained.

I hope you will take the opportunity to visit the Bookstore and browse around.

John P. Robarts,  
Prime Minister of Ontario.

## INTRODUCTION

This volume is the result of an inventory of Departmental publications taken during the period of November 1, 1968 up to and including October 10, 1969. It includes all of the publications that a department has available, some of which date prior to the inventory have been supplemented with new cumulations since October 10, 1969 and includes additions as recent as March, 1970.

The new cumulations will be published in a monthly checklist. The material which appears in the monthly checklist is used to compile the regular catalogue.

## EXPLANATION OF CATALOGUE LIST

### Author

In the entry, sub-divisions are listed under department. This arrangement was adapted because the structure of the Ontario Government is not generally known well enough for its sub-divisions to stand independently of Departments.

### Call Numbers

The Departments have all been assigned a unique two-digit code number. The sub-divisions within the department are also assigned two digits. The name of the sub-division is printed out in alphabetic characters immediately preceding the title of the publication. The remaining numeric figures in the call number are the publication numbers. The complete call number of a publication would contain the department and sub-division code and the individual publication number, i.e. Agriculture and Food is coded 02, the sub-division within the department,

"Economics", would be 42 and the publication, "Planning Father Son Agreement", is coded 4. The complete call number would appear on the right-hand side of the catalogue page as 0242-4.

#### Alphabetical Arrangement

The catalogue is arranged alphabetically by title within each department.

#### Entry Numbers

Entry numbers are in sequential order and appear on the left of a catalogue entry. Their only purpose is to relate an item in the subject index to the catalogue item. The catalogue item is arranged alphabetically under the department heading and it is possible the call number would not be in sequential order. This presents a problem in referring to an item from the subject index if only the call number is the source of identification. The use of sequentially numbered entries keyed to the

index makes reference to the publication feasible and simple.

Whenever ordering a publication and wherever possible the call number is the identification that should be used.

#### Monthly Checklist

The monthly checklist is a record of all new acquisitions of government publications. This list which is the day-to-day information on what is being published, the Legislature of Ontario, and the various departments of the Ontario Government is available to those on the automatic and selective lists and all other interested parties.

#### Annual and Semi-Annual Catalogue

The catalogue is a compilation of all the official publications, public documents and papers not designated as being for internal use only or not of a confidential nature.

It also lists those few publications, which for reasons peculiar to the department concerned,

are not available to the public and have a very limited distribution. Publications in this category are usually labelled in the catalogue as "restricted distribution".

The regular catalogues as produced will contain all the items previously listed in the monthly checklists. Prices and distribution policy is stated in the catalogues to assist the public in their selection of publications.

The list price for the catalogues including subscription rates may be obtained by enquiry to the Queen's Publisher.

#### Queen's Publisher Deposit Accounts and Discounts

The purchase of publications requires that orders be paid in advance of publications. Purchasers of Canadian Government Publications may find it advantageous to deposit \$10.00 or more with the Queen's Publisher to avoid making individual small remittances. More information regarding this procedure may be obtained from the Queen's Publisher.

## Discounts

Quantity discounts will be allowed to purchasers or to booksellers or those engaged in the retail sale of miscellaneous or annual Ontario publications. Public libraries, schools and universities may also be allowed a discount. For more detailed information on this subject address your enquiries to the Queen's Publisher.

## Remittances

Cheques or Money Orders should be made payable to Treasurer of Ontario. Currency is sent at the sender's risk. No postage stamps will be accepted as payment of publications. Address all purchase orders or enquiries to:

The Queen's Publisher of Ontario,  
9th Floor, Ferguson Building,  
Parliament Buildings,  
TORONTO.

All requests and orders should include the name of the author, department, the title of the publication and the catalogue number. All prices are subject to change without notice.

Distribution of Official Publications to Designated  
Full Depository Libraries and to those on the Selec-  
tive Lists Entitled to Receive them Free of Charge

The Queen's Publisher shall distribute without charge one copy of any government publication classified as not being for internal use only to designated libraries in Ontario for preservation so that the public may have access to all government publications.

Full Depositories

Full Depository Libraries automatically receive one copy of the government publications free of charge.

Selective Depositories

The Queen's Publisher shall provide free of charge one copy of each publication listed in the monthly checklists to selective depositaries provided selections are made from the monthly checklists within 30 days of it's issue.
